Torture Garden Octave Mirbeau, 2020-09-28 One evening some friends were gathered at the home of one of our most celebrated writers Having dined sumptuously they were discussing murder apropos of what I no longer remember probably apropos of nothing Only men were present moralists poets philosophers and doctors thus everyone could speak freely according to his whim his hobby or his idiosyncrasies without fear of suddenly seeing that expression of horror and fear which the least startling idea traces upon the horrified face of a notary I say notary much as I might have said lawyer or porter not disdainfully of course but in order to define the average French mind With a calmness of spirit as perfect as though he were expressing an opinion upon the merits of the cigar he was smoking a member of the Academy of Moral and Political Sciences said Really I honestly believe that murder is the greatest human preoccupation and that all our acts stem from it We awaited the pronouncement of an involved theory but he remained silent Absolutely said a Darwinian scientist and my friend you are voicing one of those eternal truths such as the legendary Monsieur de La Palisse discovered every day since murder is the very bedrock of our social institutions and consequently the most imperious necessity of civilized life If it no longer existed there would be no governments of any kind by virtue of the admirable fact that crime in general and murder in particular are not only their excuse but their only reason for being We should then live in complete anarchy which is inconceivable So instead of seeking to eliminate murder it is imperative that it be cultivated with intelligence and perseverance I know no better culture medium than law Someone protested Here here asked the savant aren t we alone and speaking frankly Please said the host let us profit thoroughly by the only occasion when we are free to express our personal ideas for both I in my books and you in your turn may present only lies to the public The scientist settled himself once more among the cushions of his armchair stretched his legs which were numb from being crossed too long and his head thrown back his arms hanging and his stomach soothed by good digestion puffed smoke rings at the ceiling Besides he continued murder is largely self propagating Actually it is not the result of this or that passion nor is it a pathological form of degeneracy It is a vital instinct which is in us all which is in all organized beings and dominates them just as the genetic instinct And most of the time it is especially true that these two instincts fuse so well and are so totally interchangeable that in some way or other they form a single and identical instinct so that we no longer may tell which of the two urges us to give life and which to take it which is murder and which love I have been the confidant of an honorable assassin who killed women not to rob them but to ravish them His trick was to manage things so that his sexual climax coincided exactly with the death spasm of the woman At those moments he told me I imagined I was a God creating a world

The Dumbest Generation Mark Bauerlein, 2008-05-15 This shocking surprisingly entertaining romp into the intellectual nether regions of today's underthirty set reveals the disturbing and ultimately incontrovertible truth: cyberculture is turning us into a society of know-nothings. The Dumbest Generation is a dire report on the intellectual life of young adults and a timely warning of its impact on American democracy and culture. For decades concern has been brewing about the dumbed-down popular culture available to young people and the impact it has on their futures. But at the dawn of the digital age many thought they saw an answer: the internet, email, blogs, and interactive and hyper-realistic video games promised to yield a generation of sharper, more aware and intellectually sophisticated children. The terms "information superhighway" and "knowledge economy" entered the lexicon and we assumed that teens would use their knowledge and understanding of technology to set themselves apart as the vanguards of this new digital era. That was the promise. But the enlightenment didn't happen. The technology that was supposed to make young adults more aware, diversify their tastes, and improve their verbal skills has had the opposite effect. According to recent reports from the National Endowment for the Arts, most young people in the United States do not read literature, visit museums, or vote. They cannot explain basic scientific methods, recount basic American history, name their local political representatives, or locate Iraq or Israel on a map. The Dumbest Generation: How the Digital Age Stupefies Young Americans and Jeopardizes Our Future is a startling examination of the intellectual life of young adults and a timely warning of its impact on American culture and democracy. Over the last few decades, how we view adolescence itself has changed, growing from a pitstop on the road to adulthood to its own space in society, wholly separate from adult life. This change in adolescent culture has gone hand in hand with an insidious infantilization of our culture at large. As adolescents continue to disengage from the adult world, they have built their own, acquiring more spending money, steering classrooms and culture towards their own needs and interests, and now using the technology once promoted as the greatest hope for their futures to indulge in diversions from MySpace to multiplayer video games 24/7. Can a nation continue to enjoy political and economic predominance if its citizens refuse to grow up? Drawing upon exhaustive research, personal anecdotes, and historical and social analysis, The Dumbest Generation presents a portrait of the young American mind at this critical juncture and lays out a compelling vision of how we might address its deficiencies. The Dumbest Generation pulls no punches as it reveals the true cost of the digital age and our last chance to fix it.
